

How to save a video from Youtube

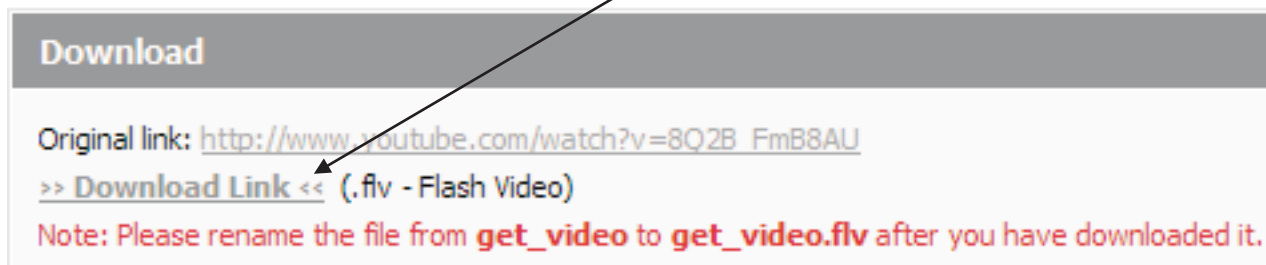

- 1) Go to the video at youtube.com
- 2) Highlight the address and press ctrl-c (copy)

- 3) Go to the website keepvid.com
- 4) Click in the blank area shown below and press ctrl-v (paste)

- 5) Click the Download button
- 6) Click the >>Download Link<< that appears

- 7) Click Save on the box that pops up
- 8) Change the file name from get_video to something more meaningful that ends in ".flv" For example, a video about atoms, you could name atoms.flv
